

## Break Rules POV Text

Hello, this is AJ, welcome to the point of view stories for “Break Rules.” Let’s begin.

\* \* \* \* \*

**Andre has been an obedient white-collar worker for most of his life.**

What has he been?

*He has been an obedient white-collar worker.*

Has he been a rebel most of his life?

*No, he has not been a rebel most of his life, he has been an obedient white-collar worker.*

**In fact, he has been petrified to try anything new.**

Has he been scared?

*Yes, he has. He has been petrified. He has been petrified most of his life. He’s been very scared most of his life. He has been petrified to try anything new. And, in fact, his productivity has been very low. He has not been productive most of his life. His productivity has been very, very low.*

**And so, as a result, one day he was fired. He was fired from his job and he felt terrible. In fact, he beat himself up about it. He said to himself “Damn it! I blew it! I blew it! I was so stupid! I really blew it.” But he decided to change. He decided to become a rebel. He totally changed. He decided to constantly try new things. And he did, he constantly tried new things in every part of his life. He became a super rebel.**

**And one day he invented an amazing new toothbrush. He invented a nuclear-powered toothbrush and then he sold that amazing nuclear-powered toothbrush to millions of people. He became super rich. In fact, he became the richest man in the world. Why? All because he became a rebel.**

All right, our next story happens in the future. Imagine this will happen in the future. We're going to think about the future and imagine it. Here it goes.

**In the future there'll be a guy named Andre. He'll be an obedient white-collar worker, a normal guy. In fact, he's going to be petrified to try anything new. He'll always be afraid, all the time. And, ah, his productivity will be very low. He'll have very low productivity.**

**And so, one day, he's going to be fired. He'll be fired from his job because he's boring and because his productivity is so low. And, at first, of course, he's going to beat himself up about it. He's going to feel terrible. He'll say to himself "Damn it! I blew it! I blew it! I blew it! I was so stupid, I really blew it!"**

**But, then, he'll stop beating himself up and he'll decide to change. He'll decide to become a rebel. He'll become a super rebel! He's going to constantly try new things every day in every part of his life, all the time, breaking the rules, trying new things.**

**And one day he'll invent something amazing, he'll invent an amazing new toothbrush. He's going to invent a nuclear-powered toothbrush and then he'll sell that toothbrush to millions of people. He'll become super rich. In fact, he's going to become the richest man in the world. And why, why will he be the richest man in the world? All because he became a rebel.**

\* \* \* \* \*

And that is the end of our point of view stories for "Break Rules." I hope you will start breaking rules in your life. Break those old rules of learning English. Break them! Destroy them! You're a new person now. You're a rebel in the Effortless English Club.

Welcome, we're happy to have you here. See you next time, bye-bye.
